

SYSTEMS AND SERVICES
for Kitchen Cabinets and Vanities

MAKING A GREAT FINISH FOR YOUR CABINETS IS JUST A START.

With every finish we make, we also make a commitment. To help you grow. To help you succeed. And to help you stand out in the marketplace. Each one of our innovative coating systems is designed to ensure consistency, improve

your productivity, and deliver the look your customers desire. But our service to you doesn't end with the finish.

Our experienced color experts and designers will work with you through your entire manufacturing process. We'll give you finishing formulations based on the trends influencing your customers. And, we'll automate custom finishing techniques into your assembly line.

What's more, our knowledgeable engineers will show you how to make your production line more efficient. Plus, our Sher-Wood® Stain Matching Services will give you the ability to customize consistent matching formulas based on the specific products used in your facility. This helps you control your costs and meet your deadlines.

For over a hundred years, cabinet manufacturers like you have relied on Sherwin-Williams for outstanding coatings and support. And you can always count on us for the innovative solutions you need to build your business.

PERFORMANCE-PROVEN COATINGS

When it comes to coatings, no other supplier can beat Sherwin-Williams. We offer a complete line of advanced waterborne and solvent-based systems, such as Sher-Wood® Wood Finishing Systems and Ultra-Cure® UV Technology. You can count on our coatings to ensure consistency, increase your productivity, and deliver a great look that lasts.

COLOR AND CUSTOM FINISH CAPABILITIES

Let Sherwin-Williams show you how to satisfy the changing tastes of your customers. Our color experts are always on the lookout for hot trends in your industry. And the custom finishes we provide will help you achieve desirable looks, such as glazed, distressed, crackled, and rub-through. Which means you'll have no problem meeting the demands of your customers.

DESIGN ENGINEERING

At Sherwin-Williams, we're adding to our teams of experienced designers and engineers to help you increase your productivity. We'll work with you at your plant to spot inefficiencies and keep you up-to-date on regulations. Plus, we'll bring you production technologies that will automate custom finishing into your process. With our design engineering assistance, you can lower your costs and create a better product.

SHER-WOOD® STAIN MATCHING SERVICES

Custom stain matching doesn't have to be difficult. With our Sher-Wood Stain Matching Program, you'll be able to maintain consistent matching formulas in your own facility. And our innovative Stainware™ Software will duplicate your match endlessly. Plus, it can be customized to the specific Sher-Wood products used in your facility.

GLOBAL DISTRIBUTION AND SUPPORT NETWORK

No matter where you are, Sherwin-Williams is right around the corner. Our service facilities located across North America ensure that you'll get the sales and technical support you need, when you need it. And our network of over 90 distribution centers will maintain inventory based on the products you use. So you'll get your orders fast.
