

SHER-WOOD®

Kemvar® Glazes

ACHIEVE YOUR VISION. AND PROTECT IT.

The new Sher-Wood® Kemvar® Glaze is the ideal addition for wood finishers that pride themselves on quality and craftsmanship. Its ability to create many of today's popular wood finishes coupled with its versatile application capabilities make it easy for you to achieve the look you want. And whatever wood species you choose -- from birch to maple to oak to cherry and beyond --

you can be sure that Sher-Wood Kemvar Glaze will bring out its natural beauty every single time.

SHER-WOOD®

Kemvar® Glazes

Performance Properties

Sher-Wood® Kemvar® Glazes give you the versatility of traditional glazes with the durability needed with catalyzed coatings. Available in Van Dyke Brown, Natural and White, it can be applied by spray or brush so you can achieve techniques and effects such as ragging, sponging, stippling, marbling, parchment, dragging and combing that really make your products stand out. Formulated for excellent adhesion over unsanded pigmented base coats, these glazes highlight the wood's grain to create beautiful, three dimensional looks with rich depth and color. And, with 10 minutes of open time you'll never have to rush perfection.

Color Services

At Sherwin-Williams, we study the trends and provide the color forecasts specific to your industry so you'll have all the color and finish offerings your customers demand. We'll even help you incorporate custom finishing techniques right into your finishing line. And we'll ensure you receive consistent color, batch to batch, whether you have one finishing facility or several around the world.

Distribution Network

With a network of over 90 distribution centers, Sherwin-Williams is sure to have your most needed products in stock and ready for fast delivery. And our local field sales, technical assistance and marketing consulting representatives stand ready to get you the answers you need when you need them.
